
Ring Valve

Design Advantage:

1. Wide channel, wide sealing surface ——— Better airtightness and flow performance , energy conservation
2. Large valve lift ——— Large flow area, low loss of the valve
3. High performance impact resistance of PEEK valve plate ——— low loss of the valve seat and valve plate , low noise
4. Special structural design of the valve plate ——— Decrease the valve tilting movement
5. Sturdy spring ——— low stress and long life
6. Soil Resistance ——— Resistance to liquid and impurities and oil viscosity, high reliability
7. Optimum design of the valve bonnet ——— Resistance to oil and viscosity

Suitable Area:

Coal Chemical Industry

Waste Gas Recovery for Oil and Petrochemical
